

STRATA™

Wellmade®
PERFORMANCE FLOORING

Composite Bamboo Plank

The warmth of eco-friendly natural bamboo. The performance of HDPC™ core technology. That's the Strata™ Bamboo Plank difference. Stable installation in any environment, from humid to arid. Available in fashion-forward strand woven designs.

Performance Features

- Real strand woven natural bamboo wear layer
- HDPC core remains stable and performs on any level of the home or office.
- Genuine Uniclic® system floats easily over most existing hard surface floors
- Crystal clear HardMax® finish with superior Nano Technology
- Moisture resistant and easy to maintain performance
- 25-year residential and 5-year light commercial warranty
