

Optiwood™ Flooring, featuring Hydri-Core™ technology, couples the warmth of real wood veneers with the exceptional performance only a plastic composite core can deliver. Installs easily on any level of the home or office with minimum acclimation and hassle.

- High pressure wood veneers form a tough and easy to maintain wear layer
- Innovative plastic composite core outperforms engineered hardwood flooring
- Uniclic® floating system locks together with ease and installs over most existing hard surface floors
- Virtually waterproof, requires minimum acclimation prior to installation
- Wide planks add sophistication and visual impact
- Limited lifetime residential and comprehensive 10-year light

Cinnamon Elm
