

HDPC® WATERPROOF STRAND BAMBOO

Eco-friendly strand woven bamboo is now available in waterproof HDPC® rigid core flooring. Enjoy the natural, character-driven beauty of strand bamboo coupled with the performance virtues only rigid core flooring can provide. Dimensionally stable in the most demanding environments, HDPC® bamboo is three times harder than domestic oak!

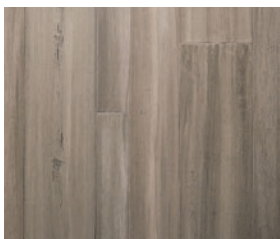

- High performance strand woven bamboo flooring
- HDPC® durable rigid core technology
- 100% waterproof. Installs without acclimation
- Attached pad and Uniclic® locking system
- Superior impact resistance. 3X harder than oak
- HardMax™ finish protects against household spills
- Wellmade branded or "private label" programs available
