

# Wellmade® HDPC® 12 Mil Wear Layer Dryback Vinyl Plank Warranty

## Warranty

LIFETIME RESIDENTIAL LIMITED WEAR WARRANTY & 10 YEAR LIGHT/MEDIUM COMMERCIAL LIMITED WARRANTY

### What the Residential Limited Warranty Covers:

This flooring is warranted that:

- Will not wear-through the finish under normal foot traffic conditions (scratches or reduction in gloss level is not considered wear)
- Will be free of manufacturing defects
- Wear-through is defined as total loss of pattern with 100% finish removal over a minimum of 3% of the total installation

### What the Commercial Flooring Warranty Covers:

This floor is warranted for 10 years of light/medium commercial\* use from the date of original purchaser:

- Will not wear through the finish under normal traffic conditions (scratches or reduction in gloss level is not considered wear)
- Will be free of manufacturing defects

*\*Light / Medium Commercial is defined as areas such as privately owned businesses, multifamily units, and activity common areas: Small retail shops, small salons, small restaurants, doctor/dentist offices, small daycare. Heavier traffic areas, high traffic entries, terminals, large retail, food preparation areas, heavy commercial hospital areas or any area where there are heavy rolling loads are not covered by this warranty*

### Moisture Warranty

Wellmade warrants the flooring in its original manufactured state to the original purchaser from the date of purchase, under normal and reasonable use, that the surface, when properly installed, shall be resistant to damage from typical damp mopping or normal household spills that are not left unattended. The Moisture Warranty does not cover flooding, leaking pipes, household mechanical failures, appliance leaks or pet urine.

### Radiant Heat (Underfloor) Installation

HDPC® Dryback may be installed over water-based radiant-heated subfloors, provided the surface temperature of the system does not exceed 85 degrees Fahrenheit

IMPORTANT: Due to the speed of sudden temperature changes, which has potential to negatively affect the flooring construction, it is not recommended to install HDPC® Dryback with electrical mat radiant heating systems. This will not be covered by the manufacturer's warranty. Radiant heating systems using water are acceptable. Before installing over newly constructed radiant heat systems, operate the system at maximum capacity to force any residual moisture from the cementitious topping of the radiant heat system. Then set the thermostat to a comfortable room temperature for the installation. It is recommended that the radiant heat be applied in a gradual manner after installing the flooring. Refer to the radiant heat system's manufacturer recommendations for additional guidance.
